IT Solutions Architect | Infrastructure | Security | Automation

IT Solutions Architect, infrastructure leader, and U.S. Army veteran

~/ West Bend, WI resume@error404.net linkedin.com/in/jessedurkee github.com/Error404-net

:: PROFILE

IT Solutions Architect and U.S. Army veteran delivering Microsoft-centric infrastructure, identity, networking, endpoint security, backup, and documentation improvements for small and midsize organizations. Combines hands-on technical delivery with operations leadership, audit-ready documentation, and calm execution under pressure.

:: CORE CAPABILITIES

Infrastructure and Identity

Microsoft 365 · Entra ID and Azure AD Connect · Windows Server and Active Directory · Microsoft Intune and endpoint management · VMware ESXi, Hyper-V, and Proxmox VE · Linux and hybrid cloud infrastructure

MSP Service Delivery

Ticket triage, escalation, and lifecycle management · Autotask PSA administration and workflow configuration · IT Glue administration and knowledge management · Datto RMM monitoring, patching, and remediation · SLA management and client communication · Vendor escalation and technician mentoring

Network and Security

Wired and wireless network design · SD-WAN, VPN, and multi-site connectivity · VLAN segmentation · Firewall and DNS security · Endpoint detection and response

Operations and Resilience

Backup and disaster recovery · Monitoring, alerting, and incident response · Patch, vulnerability, and infrastructure lifecycle management · Root cause analysis, problem management, and change control · Technical documentation and runbooks

Automation and Delivery

PowerShell and Bash automation · REST API integration and JSON/YAML configuration · Git and GitHub version control · GitHub Actions and CI/CD workflows · Docker and containerized workloads · AI-assisted IT operations

:: EXPERIENCE

IT Solutions Architect

Collett Systems LLC | West Bend, WI | Jul 2021 - Present

- > Leads infrastructure delivery spanning Microsoft 365, Windows Server, identity, networking, endpoint security, and backup systems.
- > Builds repeatable runbooks and technical documentation for delivery and onboarding.
- > Administers Autotask PSA ticket workflows and IT Glue documentation standards to improve escalation context, knowledge reuse, and service consistency.

Manager, Upholsterer, and Lead Technician

Dan Frank Upholstery Inc. | Oconomowoc, WI | 2000 - Jul 2021, excluding active-duty service

- > Directed daily shop operations, scheduling, customer work, vendor coordination, and inventory.
- > Progressed through upholstery apprentice, upholsterer, and manager responsibilities while developing client service, scheduling, quality-control, and vendor-management experience.

Infantryman and Assistant Company Armorer

United States Army | Fort Carson, CO | Oct 2005 - Jul 2009

- > Maintained 100 percent accountability during redeployment and helped manage approximately \$2 million in armory equipment.
- > Completed 40 hours of Combat Lifesaver training and provided first-response support capability.
- > Supported vehicle mobilization and participated in missions including Operation Murfreesboro.
- > Maintained inventory versions and accountability records for arms-room assets.

:: SELECTED INFRASTRUCTURE PROJECTS

Documentation System Rollout with Folge

Standardized step-by-step technical documentation to support onboarding and reduce repeated escalations.

Microsoft Modern Work Program Expansion

Supported Microsoft 365 modernization and adoption work for small and midsize organizations.

Microsoft Global Secure Access Deployment

Implemented Entra Private Access and traffic forwarding for policy-based remote access and inspection.

Multi-site Network Modernization

Designed wired, wireless, VPN, segmentation, and redundancy improvements for distributed client environments.
